Maximum functionality meets maximum beauty

Mix and match is a reality, especially for renovation projects where there is a desire to combine styles and materials for an eclectic space design. The warm feeling to the touch which is characteristic of HI-MACS® and the sleek design of these basins marry perfectly with other materials and surfaces: from natural concrete, warm natural wood or vintage tiles to any other surface you desire, only your imagination is the limit.

HI-MACS® acrylic stone has excellent hygienic properties. Thanks to its non-porous surface, the material does not absorb moisture. In addition to being waterproof, it is also extraordinarily effective at repelling stains, making it easy to clean and maintain. Furthermore, it is resistant to scratches and wear. All of these properties make HI-MACS® the ideal material for bathrooms.
